

The Ninth International Symposium on Dielectric Materials and Applications (ISyDMA'9)

Jointly organized by Faculty of Sciences Semlalia, Cadi Ayyad University and The
Executive Committee of ISyDMA

May 7th–9th 2025, Marrakech, Morocco

SCIENTIFIC PROGRAM

- Section 1 : Dielectric materials for electronics and photonics
- Section 2 : Electrical insulating materials and applications
- Section 3 : Dielectric devices for biotechnological and industrial applications
- Section 4 : 2D materials, Novel materials and, Emerging materials
- Section 5 : Metamaterial devices and other emerging devices
- Section 6 : Surface and interfacial phenomena
- Section 7 : Measurement techniques and novel technologies in materials

Selected papers will be
published in the Conference
Proceedings edited by
SPRINGER NATURE
