About Ouarzazate city

Ouarzazate is located in the centre of Morocco. Once, it was a crossing point for caravans. In the city, you should visit the former residence of the Pasha of Marrakesh: the kasbah of Taourirt, built in the 17th century. Not far from the city (30 km away), you will find the kasbah of Ait-Ben-Haddou, which means “fortified town”. It is built of traditional Moroccan red clay. Cascaded layout and beautiful carvings add mystic and charm to the building. Often it was used as a Hollywood filming location for such movies as The Mummy, Jesus of Nazareth, Prince of Persia. It is no accident that an unusual Cinema monument was erected in Ouarzazate. Another hotspot of the city is Atlas Film Studios. Here you can walk around the sets from the filming of various movies, such as Asterix & Obelix: Mission Cleopatra, Gladiator and many more.
